ADMIN LOGIN PAGE:

The screenshot shows the phpMyAdmin web interface. The browser address bar indicates the URL: localhost/phpmyadmin/sql.php?server=1&db=movie&table=customer&pos=0. The interface has a top navigation bar with tabs: Browse, Structure, SQL, Search, Insert, Export, Import, Privileges, Operations, Tracking, and Triggers. The left sidebar shows the database structure: New, information_schema, movie (selected), New, customer (selected), mysql, performance_schema, phpmyadmin, and test. The main content area displays the 'customer' table with the following data:

	id	firstname	lastname	email	phonenumber	password
<input type="checkbox"/>	1	Shrindhi	R.K.	shrindhir@gmail.com	3162365767	abcde
<input type="checkbox"/>	2	Shiraksha	Bhat	shirakshabhat@gmail.com	1234567892	uefyjdhl

Below the table, there are options to 'Check all', 'With selected', 'Edit', 'Copy', 'Delete', and 'Export'. At the bottom, there is a 'Query results operations' section with buttons for 'Print', 'Copy to clipboard', 'Export', 'Display chart', and 'Create view'. A 'Bookmark this SQL query' section is also present, with a label input field and a checkbox 'Let every user access this bookmark'. A 'Bookmark this SQL query' button is located at the bottom right.
